Abrasive materials

Dear partners!

We are proud to introduce a new European brand of abrasives and accessories – BETACORD. BETACORD offers its partners a product manufactured from the best raw materials using the most-up-to-date equipment.

BETACORD materials are notable for its high performance and excellent durability and provide optimal use of time and technical resources during execution of work.

We pay special attention to the quality of a treated surface.

Our customers can always choose between parallel product series – «YELLOW DIAMOND» abrasives with paper backing, «SAPPHIRE» abrasives with film backing and «DIAMOND FLEX» abrasive with flexible foam backing, this allows achieving perfect results.

BETACORD always offers topical range of products, fine quality and affordable price.
